

Welcome to Glide Free Foils

Congratulations on your purchase of your new set of Glide Free Foils for your Laser. You are now entering a new world of sailing at high speed on your very own Laser. As this may be the first time that you experience true high speed sailing, please take care of yourself and others when rigging, launching and sailing. Make sure that you read all of the set up maintenance and sailing instructions before attempting to foil your Laser.

We wish you many happy hours of fun foiling!!.

Inspection

Check that everything is in the package when delivered and first opened, referring to the parts list attached. Let us know if any parts did not arrive.

Set up

Please find below a short description of how to set up your foils. Refer to the following documents which are attached with your set of foils, and also available on our website www.glidefree.com.au

- a) Operating Instructions
- b) Product description
- c) Article on Foiling Laser
- d) Terms and conditions
- e) Warranty

Quick Start Instructions:

A brief description for experienced skippers. Always refer to the full Instruction Manual GF404:

- 1) Insert the centrecase insert and attach the gear block with the toggle pin from starboard side.
- 2) Add packers under the gear block to suit, screw and glue them in place. (initial setup only)
- 3) Clip on the rudder assembly. ***Always** attach the thrust washer with retaining clip.
- 4) Tip the boat over in the water and insert the centreboard from underneath, top angled forward.
- 5) ***Always** attach the centreboard safety clip through the keyhole before leaving the beach.
- 6) Lower and tightly secure the rudder down with the locking pin when leaving the beach.
- 7) Push the centreboard board fully down and pull back to engage, then wrap the cord tightly back around the pin.

.....Sail away and experience the thrill of foiling!!

Disclaimer

We take care to provide a quality, functional product, but do not warrant against damage to the boat, yourself or others when in use. We take no responsibility for foils lost when they fall out of the boat, as they don't float.

Warranty

We warrant our product for 12 months against defects and workmanship of all components. The warranty is limited to parts replacement only.

GLIDE FREE FOILS
